

Scheda Prodotto

Modello e P.O.	UNITED VP600 PLUS																																																						
Immagine																																																							
Display: 4" LCD TFT																																																							
Dimensione di proiezione : 40-150"																																																							
Risoluzione Nativa (Pixel): 800 X 480																																																							
Risoluzione supportata : 720p/ 1080p																																																							
Contrasto: 1000:1																																																							
Luminosità (Lumens) : 1500																																																							
Luminosità (ANSI): 80																																																							
Correzione Trapezio : 15 gradi																																																							
Formato immagine : 4:3 e 16:9																																																							
Regolazione messa a fuoco: Manuale																																																							
Zoom: N/D																																																							
Generali																																																							
Alimentazione : 100-240 V AC 50/60 Hz 1A																																																							
Tipo Lampada : LED 60W																																																							
Durata media lampada (Ore): 20.000																																																							
Consumo (Standby) : 0,5W																																																							
Conessioni	1 HDMI / 1 SD / 1 USB / 1 miniAV / 1 VGA / 1 CUFFIA
